

Gradebook Assignments

Overview

A Gradebook Assignment is an entity that represents anything from Homework, to Tests or even Permission Slips that have to be turned in. An assignment does not have to be graded but it certainly can be. As a matter of fact, the assignments are what make up a student's Marking Period Grade in Gradebook. We will go through the process of Assignment creation and editing in the following pages in order to make this process as easy and quick as possible for you.

- When working in the Assignments tabs, always be aware of the dropdown below the screen name. This represents the current Gradebook that you are working on.
- If you would like to run any of the functions for another Gradebook, just switch the dropdown and the screen will change to the proper Gradebook.
